

Health &
Safety

POLICY STATEMENT

It is the policy of EPIC International Sdn Bhd to ensure that all works is planned safely to ensure that our employees and any other persons that may be affected by our activities are not harmed when conducting work activities associated with our operations.

All of our operations shall be conducted in accordance with, or exceed the requirements of all pertinent legislation and relevant industry guidance and good practice.

The existence of the Health & Safety Management System is the direct responsibility of the Chief Operations Officer who has appointed a HSEQ Manager to implement and maintain the system in accordance with the requirements of International standards.

We are committed to continuously improving our Health & Safety management and performance and look to achieve this by constant monitoring and reviewing, the setting of objectives and achieving strategic targets.

We shall constantly look to develop a strong safety culture and recognize that the maximum level we can expect from our employees is the minimum level demonstrated by managements.

We shall develop a high degree of Health & Safety awareness and competence amongst our employees through management communications and training programs.

We pride ourselves on our Health & Safety standards and expect the same standard from others with whom we contract and interact.

QUALITY

POLICY STATEMENT

It is the policy of EPIC International to provide its clients with products and services which are at all times, fit for their intended purpose and fulfil contractual obligation. In order to meet these requirements, the company has developed a documented Quality Management System which forms part of the integrated Management System that has been implemented throughout its operation and is firmly adhered to where product quality may be affected.

The existence of the Quality Management System is the direct responsibility of the CEO and COO, who has appointed a HSEQ Manager to implement and maintain the system in accordance with the requirements of international standards.

Customer satisfaction is essential to the growth of our business. Our performance will be continuously reviewed and where required improved to ensure customer satisfaction is achieved at all times. EPIC International and its consortium members are committed to continuous improvement through setting quality objectives.

Considerations of safety are an essential part of the company's operations. Fitness for purpose shall at all times include fitness for safe operation of a product or safe conduct of a service. The Health & Safety Quality and Environmental policies should be considered as three interactive parts of a single corporate policy.

An important objective of the company's personnel policy is that staff shall be encouraged to be innovative and that decisions shall be taken at the lowest appropriate level of management. It is a declared element of the quality policy that the Quality management System derived from it shall be compatible with this objective.

All personnel shall be made aware of this policy and the requirement to work strictly within the defined parameters of the Quality Management System.
